EMPLOYEMENT AND EXPERIENCE

August – October. 2021   Software Developer, Good Software Inc., London, England

Temporary work in software development.

<u>June – September. 2022</u>   Front-End developer, Freelance.

I offered my services as front-end developers, my missions consisted of translating website models into real html, css and js websites. But also to create from scratch a site that sticks with the description of the client.

This experience was very rewarding in terms of the autonomy it requires and the languages used. I was able to express my creativity and helped people to translate their models.

SKILLS

Computer skills :

- <u>Languages</u>: C, C++, C#, Python, Shell, SQL, HTML, CSS
- <u>Software</u>: Git, Visual Studio, Figma

Language skills :

- <u>French</u>: Native Speaker
- <u>English</u>: B1 intermediate level

Soft skills :

- Problem solving
- Visualization

INTERESTS AND ACTIVITIES

<u>2021 – 2022</u>   1st Bachelor's degree, Delegate

Elected by my classmates to represent them on the department council, to serve as a mediator between the teachers and them.

- Reading books, mostly dystopias and horror books like « Brave New World », « The Outsider », « Fahrenheit 451 »

- Philosophy, I love listening to people talk about philosophy. And concept like happiness, evil, hope. I can read books, listen to podcasts or watch videos.
